

USC Cancer Survivorship Advisory Council: Here to help you

As an advisory group to USC Norris Comprehensive Cancer Center, The USC Cancer Survivorship Advisory Council (USC-CSAC) supports patients and their caregivers.

The mission of USC-CSAC is to facilitate the journey from diagnosis to survivorship for cancer patients and their caregivers through advocacy, education and support for the advancement of cancer research.

We directly help cancer survivors and their loved ones and advise Keck School of Medicine of USC researchers and clinicians on issues bearing on the quality of patient care. We actively participate in clinical trials and other research efforts at the USC Norris Comprehensive Cancer Center and in the surrounding community. We meet the second Wednesday of every month from 12 to 2 p.m.
