From the Director:

Dear Community for a Cure,

Please join me in celebrating the dedication and contributions of the Bloom Family to USC Norris Comprehensive Cancer Center. The Bloom Family’s generosity has been instrumental in advancing cancer research, treatment, and patient care.

Dr. Ronald Bloom's legacy continues through the Ronald H. Bloom Family Chair in Cancer Research, which was established with a gift from the Bloom family. This chair supports research that focuses on the molecular mechanisms of cancer and the development of novel therapeutic strategies.

The Bloom Family has also contributed to the creation of the Bloom Walk, a 7.5-mile path that connects the Health Sciences Campus and the USC Norris Comprehensive Cancer Center. This walkway provides a scenic route for exercise and contemplation, and serves as a symbol of the Bloom Family’s commitment to the health and well-being of our community.

In addition, the Ronald H. Bloom Family Chair in Lymphoma was established in 1996, with the Bloom family’s support. This chair has been dedicated to advancing the understanding and treatment of lymphoma.

The Bloom Family’s support for USC Norris Comprehensive Cancer Center also includes the establishment of the Ronald H. Bloom Family Chair in Breast Cancer Research. This chair is dedicated to advancing the understanding and treatment of breast cancer, and has supported numerous groundbreaking studies.

The Bloom Family’s commitment to USC Norris Comprehensive Cancer Center has not gone unnoticed. As a breast cancer survivor who has been cancer-free for 6 years this month, I want to express my gratitude to the Bloom Family for their unwavering support. Your generosity has made a real difference in the lives of countless patients and their families.

To the Bloom Family, I say thank you. Your dedication to advancing cancer research and improving patient care is truly inspiring. We are grateful for your contributions and proud to be a part of the USC Norris Comprehensive Cancer Center family.

Sincerely,

Director, USC Norris Comprehensive Cancer Center
